Please see our Specification Catalog for wood species and price class information for custom Keystones.

Please fax or email your rough drafts or CAD drawings to our Non-Catalog Team for your manufacturing or quote needs. Our Non-Catalog Specialists will closely monitor the engineering requirements for your special projects.

Email your CAD drawings to: noncatalog@WalzCraft.com

Wainscot Valance Notes

- Standard Outside Edge Profile is D7.
- Available with "Traditional" Stile & Rail Profiles **only**.
- Stile and rail dimensions are standard at 2¹/₄", upcharges will apply for non-standard part sizes.
- Applied Molding options for shaped rails are limited, see additional information in our Specification Catalog.
- Style number indicates the number of panels for that design; panels will be equal in width.
- The radius is based on the specifications for the overall height, and the height at the narrowest point.
- Minimum height at the narrowest is 10"; overall maximum height is 40".
- **5 square foot minimum** per piece for pricing.
- Wainscot Valances over 96" wide, please see additional information that may apply in our Specification Catalog.
- Any variations in the guidelines noted, will be considered non-catalog and additional upcharges may apply.
