2	SolidTone® Plus Color Block	When ordering a SolidTone® Plus finish, please indicate "SolidTone® Plus" in the Special Instructions column on the order form.

Pricing

1	Pricing	Please see Section T.1 of our current Wholesale Pricing Catalog .
---	---------	---

Technical Notes: In-Stock Solid Wood Color Blocks

Dealer Aid Options (Chapter T)

1	Color Block Construction	In-Stock color blocks are constructed using 3 glue-ups to provide a more realistic color comparison. - Shows some of the natural color and grain variation present in that particular wood species. - Approximately 5"W x 5½"L [127.0mm x 142.9mm]. - Made from color block molding #1288 (see Section N.9 for unfinished 8' [2438.4mm] lengths).
2	Color Block Sets	For a list of the wood species and color combinations that are available per set, please refer to our website. - Use part #195989 for all stain, SolidTone® and STWG sets (does not include Starter Variety Packs). - All solid wood color blocks within a full set will be chained together.
3	Starter Variety Packs	Stain (#195983): Features 18 of our most popular wood species and color combinations. Includes Wiping, Spray No Wipe and Water Based Wiping stain colors. SolidTone® (#195985): Features 10 of our most popular colors.
4	Life Expectancy	36 month life expectancy for Alder, Hickory, Maple, Oak-Red, Oak-White and Walnut. - We recommend ordering new samples if the current date exceeds the ship date by more than 3 years. 24 month life expectancy for Cherry. - We recommend that you order new samples if the current date exceeds the ship date by more than 2 years.
5	Color Block Labels	Color blocks will be labeled to identify the wood species, stain or SolidTone® color and ship date.

Non-Inventory Color Blocks / Wood Species Samples

Ordering & Pricing Notes: Non-Inventory Color Blocks / Wood Species Samples

Ordering Guidelines

1	Order Forms	Please use Sample Color Block Order Form (E•Z Form #5.6) for all Non-Inventory Color Blocks / Wood Species Samples.
2	SolidTone® Plus Color Block	When ordering a SolidTone® Plus finish, please indicate "SolidTone® Plus" in the Special Instructions column on the order form.
Pricing		
1	Pricing	Please see Section T.1 of our current Wholesale Pricing Catalog .

Technical Notes: Non-Inventory Color Blocks / Wood Species Samples

Dealer Aid Options (Chapter T)

1	Solid Wood	If a specific solid wood species/grade is preferred that is not listed in the chart on the previous page, an individual Non-Inventory Color Block / Wood Species Sample can be ordered.
		Constructed from 2 or more edge glued staves to provide a more realistic color comparison.
		Unfinished Wood Species Blocks and Non-Inventory Color Blocks with stain will be ¾" thick x 12" wide x 7" high. - Can be ordered in any of WalzCraft's wood species/color-grain/grade combinations from Chapter S. - Can be ordered prefinished in any of the stain colors listed as available within the grids in Section R.1.
		Non-Inventory Color Blocks with a SolidTone® or SolidTone® WoodGrain finish will be ¼" thick x 5" wide x 5⅝" long. Can be ordered prefinished in any of the SolidTone® and SolidTone® WoodGrain colors listed as available within the grids in Section R.2.
2	Veneer	If a finished veneered sample is required for your project, an individual Stained Veneered Color Block can be ordered.
		Constructed with an MDF core as a Style 60* drawer front using EBT201 or EBT201-R (see Sections B.10 & B.11).
		Stained Veneer Color Blocks will be ¾" thick x 12" wide x 7" high [19.1mm x 304.8mm x 177.8mm].
		Can be ordered in any of WalzCraft's veneers from Sections B.10 & B.11 along with any of the stain colors listed as available within the grids in Section R.1 . For Reconstituted veneer, we recommend either a Natural/Clear Coat (no stain) or a light stain color only.
4	Life Expectancy	36 month life expectancy for Alder, Hickory, Maple, Oak-Red, Oak-White and Walnut. We recommend ordering new samples if the current date exceeds the ship date by more than 3 years.
		24 month life expectancy for Cherry. We recommend that you order new samples if the current date exceeds the ship date by more than 2 years.
5	Color Block Labels	Color blocks will be labeled to identify the wood species, stain or SolidTone® color and ship date.

Reconstituted Veneer /Architectural Grade Sample Set

Ordering & Pricing Notes: Reconstituted Veneer /Architectural Grade Sample Set

Ordering Guidelines

1	Order Forms	Please use Moldings & Miscellaneous Order Form (E•Z Form #5) .
2	Part Number	Use WCI #166596 when ordering.
Pricing		
1	Pricing	Please see Section T.1 of our current Wholesale Pricing Catalog .

Technical Notes: Reconstituted Veneer /Architectural Grade Sample Set

Dealer Aid Options (Chapter T)

1	Included in Set	Set includes one 3¾" x 5¼" [92.1mm x 133.4mm] Non-Adhesive Paper Back Reconstituted Veneer sample in each of our available wood species.
---	-----------------	--

Finish Options (Chapter R)

1	Finish	Available unfinished only.
---	--------	----------------------------

Wood Specie Options (Chapter S)

1	Wood Species "Looks"	• Ash • Birch /Maple • Cherry • Ebony • Fir • Mahogany • Maple/Birch • Oak • Rosewood • Teak • Walnut • Wenge
2	Maple & Birch	Since Reconstituted Veneers are a " representation of a wood species ", and are not actually a veneer comprised of the wood species indicated, the same reconstituted veneer material is used for both Maple (<i>Reconstituted</i>) - Straight Grain and Birch (<i>Reconstituted</i>) - Straight Grain.

Reconstituted Veneer /Architectural Grade Sample Set - END

► For PRICING ► See Section **T.1** in our current Wholesale Pricing Catalog.

Sample Doors & Drawer Fronts

If you are interested in seeing a certain door style, a particular wood species, grade or finish color, we suggest ordering a sample that can be used in your showroom or on your job site. Sample doors and drawer fronts will receive a **30% discount**. See **Section T.2** of our **Wholesale Pricing Catalog** for more information.

- It is WalzCraft's policy to affix a label to the backside of each sample to identify the style, wood species/grade and other manufacturing specifications to provide you with pertinent information required to place an order with the exact options and features on your sample.
- Labels **will always** be affixed to the **backside** of pre-finished products unless requested otherwise. Labels may be shipped loose upon request.
- When ordering unfinished samples, WalzCraft assumes that you intend to apply a finish to the product when you receive it. Given this, a peel & stick sample label will be taped to the backside of your sample, providing you with the options on your unfinished sample.
- Once you've applied the finish to your sample, simply remove the peel & stick backer from the label and permanently adhere it to the backside of your sample for future reference.
- A 12"W x 15"H [304.8mm x 381.0mm] door can be easily handled and transported in one of WalzCraft's Hard or Soft Sided Sample Cases found in **Section T.4**. (Sample Case Part #'s 171403, 136273 and 136274).
- Please use **Door and/or Drawer Front Order Forms (E•Z Forms #2 and #3)**.

Door/Drawer Front Connection (Steel Dowels, Plastic Spacers)

Door/Drawer Front samples can be attached to each other with **steel dowels**, which include an $\frac{1}{8}$ " [3.2mm] thick spacer in between the door and drawer front. These should be ordered at the sizes noted below in order to fit WalzCraft's larger Soft Sided Sample Cases in **Section T.4**.

Sample case part **#171404** and **#137525** will accommodate:

- (5) Sample doors with attached drawer fronts.
 - Doors = 12"W x 15"H [304.8mm x 381.0mm]
 - Drawer Fronts = 12"W x 6"H [304.8mm x 152.4mm]
- To accommodate the steel dowels, outside edge profile options are limited; please reference the **Outside Edge Profile Compatibility** chart under **Technical Information** on our website.
- Door/Drawer Front stile widths must be $\frac{1}{2}$ " [38.1mm] or greater to utilize this connection method.
- Please use the **Special Instructions** section on your order form to indicate which door and drawer front should be connected.
- The dowels/spacers can also be purchased separately using Part **#153968**.
 - Includes one steel dowel and one plastic spacer.
 - Use **Molding & Miscellaneous Order Form (E•Z Form #5)**.
 - Doors and drawer fronts will not be predrilled.

Sample Door/Drawer Front Combination, Connected Together with 2 Steel Dowels and 2 Plastic Spacers.

Wall Mounted Sample Door Display Kit (Holds up to 30 Doors)

Shown with “*Right Swing*” clips

Wall Mounted Sample Door Display Kits are available for displaying your sample doors and drawer fronts.

- Easy to flip through your samples and remove them if needed for an up-close look.
- Effortless to assemble, and has a flexible design that displays your product beautifully.
- Can be mounted on a wall, or anywhere you can imagine.
- Each kit includes an upper aluminum rail, a lower aluminum rail and one pack of 15 pair of mounting clips (for mounting 15 doors).
 - The mounting clips are available in either all “*Left Swing*” or all “*Right Swing*”. For example, right swing clips mount on the right side of the door when facing it, and left swing clips mount on the left side of the door when facing it.
- Each set of rails will hold a maximum 30 doors.
 - To fill all 30 spots, an additional pack of 15 pair of mounting clips will need to be ordered.
- Aluminum rails measure 45" [1143.0mm] long with hole spacing 1½" [38.1mm] on center.
- Additional mounting clips are offered in packs of 15 pair (for mounting 15 doors).
 - Specify “*Left Swing*” or “*Right Swing*” when ordering.
- Please use **Molding & Miscellaneous Order Form (E•Z Form #5)**, and the following part numbers:
 - **Part #160428** - Sample Display Kit with “*Left Swing*” Clips
 - **Part #160430** - “*Left Swing*” Mounting Clip Add-On Pack (15 pair of clips for mounting 15 doors)
 - **Part #160429** - Sample Display Kit with “*Right Swing*” Clips
 - **Part #160431** - “*Right Swing*” Mounting Clip Add-On Pack (15 pair of clips for mounting 15 doors)

Wall Mounted Sample Door Display Kit Installation Instructions

Step 1) Place sample door on work surface face down. Be sure to protect the face from scratches.

Step 2) Place the hinge with the longer pin on the top of the door.

- Place the hinge with the shorter pin on the bottom of the door.
- Drill pilot holes and attach hinges to door.

Step 3) Mount the aluminum angle on the wall or any where you want and insert doors into the rail.

Note: Right swing hinges mount on the right side of the door when facing it, and left swing hinges mount on the left side of the door when facing it.

- We recommend hinging all doors so they swing in the same direction.
