Ordering & Pricing Notes: Fluted Molding

Ordering Guidelines

1	**Order Forms**	Please use ***Fluted Molding Order Form (E•Z Form #10)***.
2	**Ordering Information - Fluted Molding**	To order, please note the following information in the appropriate spaces on ***E•Z Form #10,*** along with any other additional options. • **Flute Part #** (ex: #700-06**RF** or #700-06**RGF**) • **Flute Size** • **FL** or **NFL** • **Quantity**, **Width** and **Length** of fluted molding • **# of Flutes** (*see chart on previous page for guidelines*) • **Flute start/stop pattern (SSP)**
3	**Ordering Information - Fluted Molding w/ Integral Rout**	Specify the **Integral Rout Pattern**: **IR100** *or* **IR200**. See examples on ***previous page***. Note Standard Round (**ex: IR100-RF**) or Glaze Notch (**ex: IR100-RGF**) flutes.
		Specify the measurement from the top or bottom of the **#700** molding to the center of the **Integral Rout Pattern**.
		Specify the ***"Start & Stop Pattern"*** (SSP) for your fluted molding.
		Specify the ***"Start & Stop"*** measurement for the NFL flute pattern.

Pricing

1	**Pricing**	Please see ***Section O.8*** of our current **Wholesale Pricing Catalog**.

Technical Notes: Fluted Molding

Accent Component Options (Chapter O)

1	**Start/Stop Pattern**	**Fluted Molding Start and Stop Pattern (SSP) Options** are shown on the previous page. Choosing a flute start/stop pattern **(SSP)** option will define whether your fluted molding is Full Length (**FL**) or Not Full Length (**NFL**). For example, the **SSP200** pattern will run the full length of the molding when this pattern is specified for ***both*** the top & bottom of the molding.

Accent Component Options (Chapter O)

1	**Custom Configurations**	If your project requires a flute pattern that runs ***against*** the grain, please contact our Customer Support team to inquire about custom configuration options.
		Inquiries and requests will be evaluated on a per order basis.
		Size restrictions will be a consideration based on the width of your molding, the number and size of flutes.
		We reserve the right to decline requests for quotations or orders, based on our capabilities and/or current capacities.

Finish Options (Chapter R)

1	**Round Flutes with or without Glaze Notch**	**Fluted Moldings** and **Intregal Rout Patterns** are available with (Round Glaze Flute) or without (Round Flute) a notch for glazing, with different flute size options.
		Round Glaze Flute (RGF): This notch was added as a place for Flow Pen Glaze to be applied. See ***Section R.3*** of the **Product Specifications Catalog** for more information on Glaze.
2	**3D Laminate (RTF)**	Fluted moldings are ***only*** available with 3D Laminate (RTF) when using standard Round Flutes **(ex: #700-06RF)**.
		Not available with the glaze notch.
		When ordering the 3D Laminate (RTF), please specify the material for the back as being either a White-W300 or Almond Melamine or a matching 3D Laminate (RTF) material.

Functional Options (Chapter F)

1	**45° & 90° Inside and Outside Corner Options**	Refer to ***Section F.2*** for Miscellaneous Joinery Options to create columns with your Fluted Moldings.

Material Options

1	**Materials Available**	Available in all of the species/grades noted in ***Section O.8*** of our current **Wholesale Pricing Catalog.**
2	**MDF - MR, NAF, Raw**	Raw MDF fluted moldings are also available with MDF - MR (Moisture Resistant), NAF, Raw. Only available with ¾" [19.1mm] thickness.

Notes Continued on Next Page...

▶ **For PRICING** ▶ *See Section* ***O.8*** in our current Wholesale Pricing Catalog.

Technical Notes: Fluted Molding...continued		
Profile Options (Chapter E)		
1	**Outside Edge Options**	**D7** is the standard outside edge for solid wood and raw MDF fluted moldings.
		D33 is the only available outside edge profile when using 3D Laminate (RTF).

Sizes / Dimensions		
1	**Flute Spacing**	The standard spacing between each flute is ⅜" [9.5mm] with a minimum of ¼" [6.4mm], and the minimum flat on each end is ¼" [6.4mm].
2	**Flute Depth**	**Solid Wood Round Flutes**: Flute depth is half of the flute width.
		Solid Wood Round Glaze Flutes: Flute depth will be the same as Round Flutes, but is measure from the bottom of the Glaze Notch. Overall depth from the face of molding will be 1/16" [1.6mm] deeper than Round Flutes.
		Raw MDF Round / Round Glaze Flutes: Flute depths will match those of solid wood.
		Raw MDF Round Flutes with 3D Laminate: Flute depth will be approximately half of the solid wood flutes. Round flutes with 3D Laminate are not available with glaze notch.
3	**Molding Thickness**	• Solid wood available in ¾" [19.1mm], 1" [25.4mm] and 1¼" [31.8mm] thicknesses. • Raw MDF available in ¾" [19.1mm] and 1" [25.4mm] thicknesses. • Fluted moldings with 3D Laminate (RTF) available in ¾" [19.1mm] thickness only.
4	**Molding Width**	Fluted moldings over 6" [152.4mm] in width may be produced from a glued up panel, due to lumber availability *(this does not apply to Paint, Budget, Rustic and Knotty grades of material).* • Full Length **(FL)** moldings over 9" [228.6mm] wide may require customization.
5	**Molding Length**	Solid wood fluted moldings have a standard length of up to 96" [2438.4mm]. Lengths greater than 96" [2438.4mm] have an absolute maximum length of 120" [3048.0mm]. Lengths greater than 8' [2438.4mm] are subject to availability. *Please note that the choice of wood species and grade can impact the availability of lengths greater than 8' [2438.4mm].*
		The maximum length for raw MDF is 96" [2438.4mm].
		The maximum length for 3D Laminate/RTF is 90" [2286.0mm].
6	**Integral Rout Pattern**	Flute size for the Integral Rout Patterns will match the size specified for the SSP pattern, on your fluted molding. ***If you are not using an NFL pattern with your Integral Rout, please specify the flute width.***
		Overall width and height dimensions will match the overall width of the SSP pattern, on your fluted molding. • If you are ***not*** using an NFL pattern with your Integral Rout, please specify the overall dimension of the Integral Rout. • The minimum size required for the flat surface on each side of the Integral Rout is ¼" [6.4mm].
