#### Technical Notes: Outside Edge Profiles - Standard

**Convex / Concave Options (Chapter D)**

| 1 | Curved Products | The $\boxed{\text{C}}$ indicates profiles that are available for Convex/Concave Products. For additional ordering guidelines, see Chapter D. |

#### Finish Options (Chapter R)

| 1 | 3D Laminate (RTF) | The $\boxed{\text{★}}$ indicates profiles that are available on products using 3D Laminate (RTF). |

#### Functional Options (Chapter F)

| 1 | Hinge Boring, Finger Pulls & 45° Miter Cut | Please check the compatibility of these options with the outside edge profiles of your choice. Compatibility charts can be found on our website under Resources/Technical Information. |

#### Material Options

| 1 | Material Options |...

#### Profile Options (Chapter E)

| 1 | D123 Outside Edge Profile | Designed for use as an Outside Edge Profile option on a door that is being used as an end panel. Rabbet size on the D123 is \( \frac{1}{16} \) [17.5mm] W x \( \frac{1}{8} \) [3.2mm] H. |
| 2 | D7 / 1" [25.4mm] Thickness | D7 is the only Outside Edge Profile option available for products over 1" [25.4mm] thick. |
| 3 | D44 Combination Edges | Several outside edge profiles are available in combination with the D44 outside edge profile. When combining profiles, there will be an additional upcharge. Please check our website under Resources/Technical Information for outside edge profiles compatible with the D44. |

#### Sizes / Dimensions

| 1 | Size Recommendation | When using D5, D16, D20, D22, D36, D44, D58 and D144 outside edges with inset “lipped door” hinges, we suggest ordering doors \( \frac{1}{2} \) [12.7mm] wider and \( \frac{1}{8} \) [12.7mm] higher than the face frame opening. When using the D123 outside edge profile, doors should be ordered \( \frac{1}{2} \) [12.7mm] wider and \( \frac{1}{8} \) [12.7mm] higher than the face frame opening. When using D180 outside edge with inset “lipped door” hinges, we suggest ordering doors \( \frac{1}{2} \) [15.9mm] wider and \( \frac{1}{8} \) [15.9mm] higher than the face frame opening. |

#### Technical Notes: Outside Edge Profiles - Applied Molding

**Cabinet Door & Drawer Front Options (Chapter B, V)**

1. **Outside Edge Profiles - Applied Molding**
   - **Solid Wood Slab Drawer Front Styles**
     - Drawer fronts with ⅝" [15.9mm] outside edge applied molding profiles are ordered as Style 58SQA.
     - **Style 58SQA** is only available when using one of the ⅝" [15.9mm] outside edge applied molding profiles.
   - **Drawer Fronts with ¾" [19.1mm] outside edge applied molding profiles are ordered as Style 34SQA.**
   - **Drawer Fronts with 1" [25.4mm] outside edge applied molding profiles are ordered as Style 100SQE.**
   - See Section B.16.

2. **Veneered Slab Door and Drawer Front Styles**
   - If wanting a wood veneer door or drawer front with an MDF core, please order as a Style 60 door or Style 60* drawer front with EBT100 or EBT101 (see Section B.10).
   - **EBT100** is only available when using one of the ⅝" [14mm] outside edge applied molding profiles.
   - **EBT101** can be used for ¾" [19.1mm] outside edge applied molding profiles. See EBT101 notes in Section B.10 for profile availability.

**Convex / Concave Options (Chapter D)**

1. **Curved Products**
   - The □ indicates profiles that are available for Convex/Concave Products. For additional ordering guidelines, see Chapter D.
