Solid Wood Refacing Stock

N

Solid Wood Refacing Stock Notes

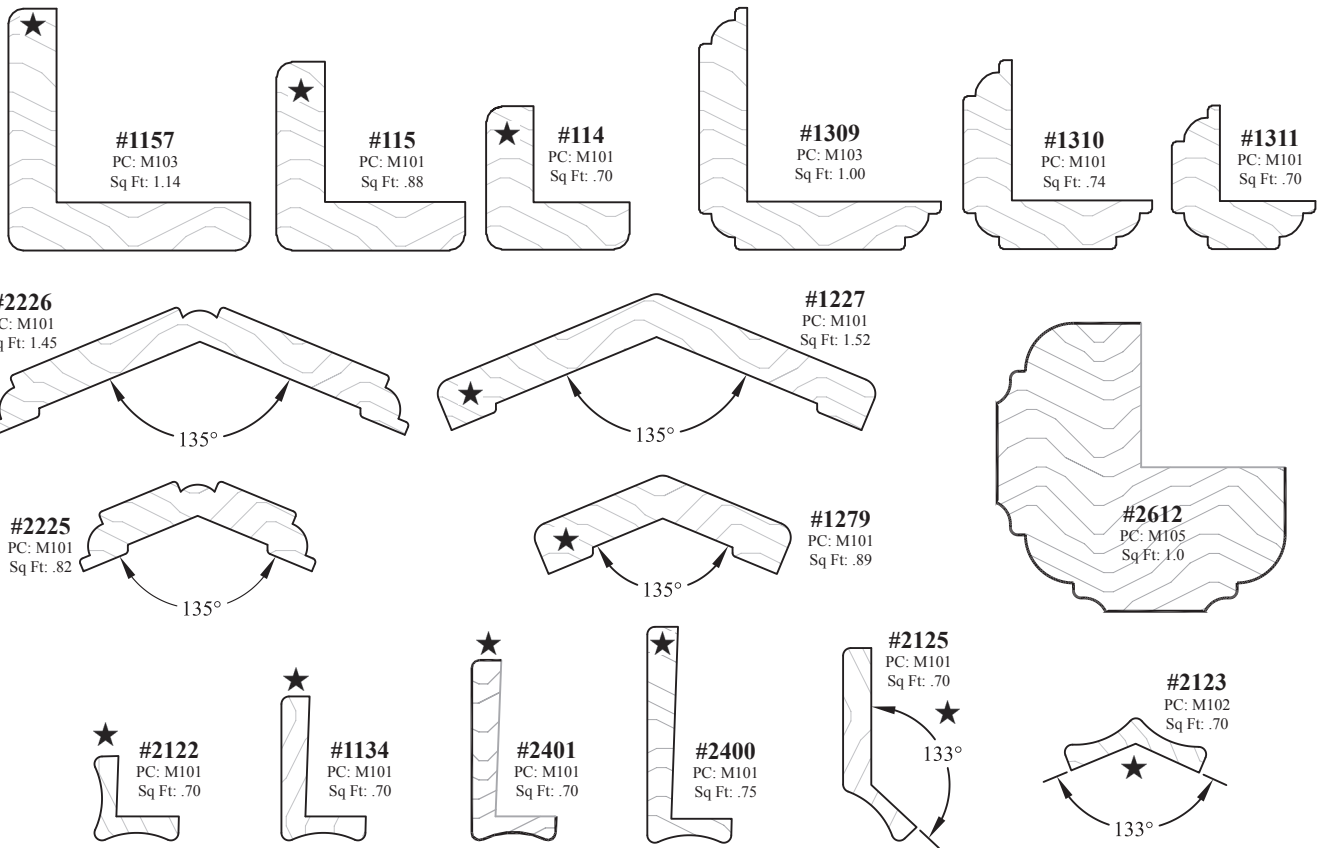

1)	Pricing	Please see <i>Section N2</i> of the Wholesale Pricing Catalog .
2)	RFS100	Refacing Stock uses part # RFS100 .
3)	Thickness	Available in 1/8", 3/16", 1/4", 5/16" and 3/8" thicknesses.
4)	Width	Minimum width dimension is 5/8" and can be ordered in 1/16" increments or dimensions rounded to the nearest whole millimeter.
		Maximum width is 6". WalzCraft makes every attempt to produce these parts from one solid piece of wood. A GUPFS may be required for sizes <u>wider</u> than 6", see <i>Section M16</i> . At times, due to lumber availability, a GUPFS may also be required for widths <u>under</u> 6".
5)	Length	The maximum length for 8' or Cut-to-Length refacing stock is 96".
		Random Length pieces will vary between 36" and 96".
6)	Minimum Order Quantity	No minimum order quantity.
7)	Finishing	Finished on one (1) face and all edges. The back is left unfinished for proper glue adhesion. Please see our Finishing section for information on Glazing.
8)	Knotty & Rustic Grades	Knotty and Rustic grade materials will only have small knots, if any.
9)	3D Laminate (RTF)	3D Laminate (RTF) Refacing Stock is made of a solid wood core (Maple - Paint Grade) and is not subject to the same thickness limitations as MDF. Maximum length of 96".

Wood Tenon Filler Molding

"GRF" Wood Filler Molding

Wood Retainer Molding (8' Lengths)

Wood Retainer Molding

#2090
PC: M102
Sq Ft: .70

Not available as a precision cut molding.

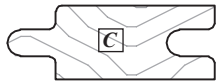

Wood Retainer Molding Notes

1)	Pricing	Please see <i>Section N9</i> of the Wholesale Pricing Catalog.
2)	#1317 and #1329 Moldings	Fit into the GRF cut of the stile and rail profile and are designed to be used with 1/8" materials.
3)	#1036 and #1120 Moldings	Designed for use as a wood retainer molding that is fastened to the rear of the 3/4" frame and can be trimmed to size, to accommodate materials thicker than 1/8". The #1120 molding would be used for 1" thick frames.
4)	#1312 Molding	The illustration above shows an example of how this molding fits into the tenon of the stile and rail profile. Designed to fill the tenon PPGC (Panel Plow Groove Cut) of any stile and rail profile, for your custom frame requirements. For use with 3/4" or 1" thick doors.
5)	#1246 Molding	The illustration above shows an example of how this molding fits into the GRF groove of the stile and rail profile. Designed to fill the void for the GRF groove in the stiles and rails of frame and mullion doors. For use with 3/4" or 1" thick doors.
6)	#889 Molding	Designed for use with 1/4" glass. Not available as a precision cut molding.

N

Wood Flooring Notes

1) Pricing	Please see <i>Section N11</i> of the Wholesale Pricing Catalog .
2) Finishing	Available Unfinished only . (<i>WalzCraft's cabinet grade finish is not engineered for wood flooring.</i>)
3) Sanding	Precision Molded Wood Flooring requires minimal sanding after installation.
4) Material	Moldings are drawn to actual size and are sold in random lengths, varying between 36" and 96".
	Moldings will also be end milled.
	Sanded to 180 grit.
5) Ordering	Total square footage must be supplied. (<i>Note, your total square footage should accommodate a waste factor.</i>)
6) Transition Moldings	Sold in 8' lengths, with 93" guaranteed to be usable.
	Moldings over 6" in width may be produced from a glued up panel, due to lumber availability.

► For PRICING ► See Section N11 in our Wholesale Pricing Catalog.

Molding "Shorts Program"

When working with solid wood occasionally defects are exposed through the manufacturing process that will not allow us to sell the molding as a clear 8' Select/Premium or Natural/Standard Grade. We are sometimes left with 3' - 7' of usable material. Part of our mission is to use our materials and resources in the most efficient manner, which is why we offer the availability of 3' - 7' moldings through this program. As an incentive, when using this **Molding "Shorts Program"** there will be a discount offered if 3' - 7' moldings are available. Please see *Section N12* of the **Wholesale Pricing Catalog** for more information. *The Molding "Shorts Program" does not apply to Outsourced Moldings.*

Molding Notes

1) Pricing	Please see <i>Section N12</i> of the Wholesale Pricing Catalog .		
2) Sanding	Moldings are sanded to 180 grit.		
3) Finishing	Finishing is an option.		
4) Molding Drawings	Solid wood moldings are drawn to actual size and sold in 8' lengths. 93" is guaranteed to be usable.		
5) Usable Molding Lengths	Usable Length of 8' & longer Moldings <i>(Excludes Random Length)</i> WalzCraft offers standard 8' long moldings, and upon request and availability, also manufactures longer moldings from 9' to 16' in even foot increments. In all cases, WalzCraft will ship a molding that is at a minimum 97% usable, rounded down to the nearest inch, per the table to the right. Please consider the lengths listed in the column <i>"Expect as Minimum Usable Material"</i> as a guide for which even foot increment molding to purchase.	Size Ordered	Expected Minimum Usable Material
		8'	93"
		9'	104"
		10'	116"
		11'	128"
		12'	139"
		13'	151"
		14'	162"
		15'	174"
		16'	186"
6) Usable "Random Lengths"	<i>Random Length material is 90% usable.</i>		
7) Molding Widths Over 6"	Due to lumber availability, moldings over 6" wide may be produced from glued up panels.		
8) 3' - 8' "Random Length" Molding Program	Minimum quantity of 200 lineal feet. Use Moldings "Shorts Program" if under minimum quantity. Please specify total footage when ordering.		
9) 3' - 12' "Random Length" Molding Program	Minimum quantity of 200 lineal feet. Use Moldings "Shorts Program" if under minimum quantity.		
	Random lengths that range from 3' to 12' must be either Picked Up or shipped via Common Carrier.		
	Lengths greater than 8' are subject to availability. <i>Please note that the choice of Wood Species and Grade can impact the availability of lengths greater than 8'.</i>		
10) 8' - 12' Length Moldings	For those occasions when you need a molding longer than 8', we will do our best to produce those lengths up to 12' long.		
	Please bear in mind, that longer length moldings are not always possible to produce in all wood species and grades.		
	<i>Please see Usable Molding Lengths, note # 5) above.</i>		
11) Molding Lengths Longer than 12'	Please contact our Customer Support Team, and ask that they research material availability and Wait Times / Lead Times.		
	Please bear in mind, that longer length moldings are not always possible to produce in all wood species and grades.		
	<i>Please see Usable Molding Lengths, note # 5) above.</i>		

► For PRICING ► See Section N12 in our Wholesale Pricing Catalog.

Molding Notes...continued

12)	“Cut to Length” Stemware Moldings	Stemware Moldings #388 & #1774 are available “Cut to Length”
		If WalzCraft is finishing the moldings, the ends will also be finished.
13)	3D Laminate (RTF)	★ = Available on products using RTF.
		3D Laminate (RTF) moldings use the same foil colors that are used on the doors, so the color match is exact.
		For quality reasons, 3D Laminate (RTF) moldings have a solid wood core (Paint Grade Maple).
		Only the face of the molding is covered with 3D Laminate (RTF) foil. The back is unfinished wood.
14)	Curved Products	The ☐ indicates profiles that are available when ordering Convex/Concave Products.
15)	Column Wraps	Column Wraps can be used as transition moldings between cabinets of different depths.
16)	Column Wrap Radius	The radius for a Column Wrap Molding is measured from the center of the thickness.
17)	Fastener Relief Cut	FRC = Fastener relief cut. See <i>page N1-3</i> for assembly detail. Hole drilling and wood screw by customer. FRC is not applicable with Convex/Concave or Canopy moldings.
